

THE ISO 9001: 2026 TRANSITION WORKSHOP

"From draft to action: What the new ISO 9001:2026 changes mean for strategy, systems and operational day-to-day work."

DATE: 27 AUGUST 2026

TIME: 09H00-12H00

A **VIRTUAL**
SYMPOSIUM

OVERVIEW

ISO 9001 is the world's leading quality management standard. It defines how any organization can establish, implement, maintain, and continually improve a quality management system (QMS). ISO 9001:2026 is the next revision of ISO 9001. It will build upon the 2015 version, maintaining the Annex SL-based structure, while incorporating editorial improvements, shifts in emphasis, and modern business considerations, such as quality culture and ethical behavior. Further amendments include AI, IoT, and automation.

Bradley Research has assembled members of The Working Group on ISO 9001:2026 to conduct a transition-readiness workshop to help organizations prepare for September 2026, when the new standard is promulgated. The workshop will be held virtually on August 27, and we invite your company/organization to join the event.

ONLINE WORKSHOP

THE ISO 9001: 2026 TRANSITION WORKSHOP

SYMPOSIUM OBJECTIVES

The new version is expected to introduce refinements that strengthen the QMS framework and consider emerging themes. The objective of the readiness workshop is to guide and assist QMS managers, auditors, and Exco personnel with a clear, non-technical map of draft changes and immediate actions in preparation for the final draft in September.

Attendees participating in this workshop will:

- Gain an understanding of what's new, revised, and removed in ISO 9001:2026 vs ISO 9001:2015,
- Learn practical steps to gap-analyze your current QMS and build a transition plan,
- Engage with colleagues on ready-to-use checklists, gap analysis tools, and communication templates,
- Position their organizations and be the first to align to ISO 9001:2026

PROGRAM OUTLINE

09h00-10h00

The ISO 9001:2026 Shift: What is driving the change?

- Climate change
- The digital risk
